

### PROFILE

Architecture student interested in architecture, interiors, and experiential design. I enjoy working across different scales, from spaces and installations to smaller design details. Currently looking for a six-month co-op in New York where I can learn, contribute, and gain hands-on design experience.

### EDUCATION

2023- 2028 EXPECTED

■ **NORTHEASTERN UNIVERSITY**  
Bachelor Science in Architecture

AUG 2026- DEC 2026

■ **PRATT INSTITUTE**  
Interior Design Exchange Program

### WORK EXPERIENCE

#### TABANLIOGLU ARCHITECTS

Istanbul, Turkey  
Part Time Architecture Intern  
| Jan 2022 - Feb 2022

- Assisted with 3D modeling and architectural visualizations for design presentations.
- Supported the preparation of material, finish, and presentation boards for project reviews.
- Participated in site visits to observe construction processes and architectural detailing.

#### DESIGN HOUSE

Istanbul, Turkey  
Design Department Intern |  
Jan 2021 - Aug 2022

- Contributed to architectural design projects focused on recycled, natural, and flexible materials.
- Researched healthy building materials, low-carbon products, and sustainable construction strategies.
- Supported the development of sustainability-focused design concepts and retrofit projects.

#### HEXTECH GREEN

Istanbul, Turkey  
Business & Design Intern |  
Aug 2022 - Sep 2022

- Researched small scale urban agriculture products designed for apartment living.
- Analyzed project development, company strategy, and social media to identify opportunities for growth.
- Proposed solutions combining technology, sustainability, and urban living.

### CERTIFICATIONS

#### Education for Innovation Foundation

- Sustainable Development, 2023
- Sustainability from Climate Crisis Perspective, 2022
- Climate Crisis, Sustainability and Green Economic Transformation, 2022
- Scientific Research, Publication and Presentation Process, 2022

### SKILLS & LANGUAGE

- AutoCAD, Rhino, Revit, Adobe Illustrator, Adobe Photoshop, Adobe InDesign, V-Ray, Procreate, 3D Modeling
- Turkish
- English

### CERTIFICATIONS

#### The Future of the Smart Cities | 2022

Conference abstract, International and Interdisciplinary Conference of Sustainable Development, Technology and Innovation.

- Examined privacy concerns surrounding smart city technologies through Toronto's Sidewalk Labs proposal, exploring tensions between urban sustainability and surveillance.

#### Neuromarketing and Consumer Neuroscience

Journal of Human Computer Interaction, pp. 38–49.

- Reviewed neuroscience applications in consumer research, focusing on EEG, fMRI, and ethical concerns surrounding consumer influence and manipulation.
